---

Good morning, Tim –

Can you share some knowledge on the request from WisDNR during our quarterly call?

- Who provided the last update on the BRRTS website, dated July 2025? (Attached)
- Are we required to continue further Starkweather Creek sampling, per the WisDNR? I see going through the previous reporting/files, we've been doing that since 2021 after the dye testing/storm sewer lining/rehabilitation.
- Has any initial PFAS reporting from the Darwin Site been shared with WisDNR or is their request yesterday the first ask to share results?
    - Are we required as part of their approval for the site plan?

**Thank you,**

**Ryan Falch, P.E.** **(WI, MN, VA, SD)**
**Director of Planning & Development**
