Hi Carlos,

I wanted to flag this record request for your attention. The breadth of the request reminded me of the record requests discussed in the Corp Counsel listserv that resulted in phishing attempts. Attached is what Constance would be sending out. The data seems fairly harmless, the requester is probably just gathering free data to train their AI program. Just wanted to check with you before I give Constance the go ahead.

Thanks,
Adam

We get these for the county all the time and we just send them out. There isn't really a lot of sensitive data on them, but let me know.

Purchasing should have this data, but let me check in with Carlos first. Other counties have received record requests for large amounts of data like this and I want to make sure it doesn't raise any red flags.

Thanks,
Adam

Adam – I am unsure what needs to be done with this.

Thank you,
