Hi Mark,
Attached are two documents for your review and approval before submitting to Wisconsin Department of Natural Resource.
One is the summary of Remedial Actions at the Darwin Burn Pit Site. This was prepared by ORIN Technologies for the remediation work they recently completed at the Darwin Burn Pit site. This report needs to be submitted to WDNR as soon as possible. The Airport can submit it to WDNR or ORIN or Mead and Hunt could submit upon request. ORIN will be continuing to do groundwater monitoring on this site until 12 months after installation was completed.
The second document is a semiannual report that needs to be submitted to WDNR summarizing progress on the PFAS remediation. Period covered by this report is Jan. 1 – June 30, 2025. Let me know if you have any questions or comments. Again, the Airport can submit to WDNR or Mead and Hunt can submit upon your request.
Thanks.
