Hi Leslie,

Here's what our attorney came back with. Sounds like the BOA holds the HMMH contract, but perhaps that's a good thing since BOA and DMA are both state agencies? Nothing to back that up with, just an assumption.

Let me know if there's anything else I can help track down.

Here is the Mead & Hunt stuff. To summarize our conversation on HMMH, that contract was procured by the State on our behalf through the Bureau of Aeronautics. I would refer Military Affairs to either Matt Malicki or Matt Messina to get more information on that contract, or at least where to start. Contact info below:

**Airport Engineering Section**

| | | | |
|---|---|---|---|
| Section Chief | Matthew Malicki, P.E. | (608) 267-5273 | matthew.malicki@dot.wi.gov |
| Airport Engineering Section Unit Supervisor | Matthew Messina, P.E. | (608) 267-7108 | matthew.messina@dot.wi.gov |
| Airport Development Engineer | Andy Trimble, P.E. | (608) 267-0454 | andrew.trimble@dot.wi.gov |

I have Mead & Hunt but will need to ask downtown for the fully signed copy of the main contract and the amendment adding PFAS to the scope (I only have the M&H signed copies).

I'm not sure about HMMH, I will need to check with Kirchner to see whether we have a direct contract with them or if they are a sub of M&H's.

Hi Adam,

I need some help tracking down a couple contracts:

Could you send me a digital copy of the overall contract (or, if it exists, an environmental-specific contract) DCRA currently has with Mead & Hunt?

Also, do you have access to the contract with HMMH for the Part 150 noise study?

Thank you,
Michael
