**Subject:** draft airport update

Hello. Attached is a draft of the next airport update. Can you please review and let me know if you have any changes? I need to modify the section about the Lansing airport so it sounds less awkward, but please let me know if everything I'm saying is correct.

Amy – I didn't include anything on the bellweather cases this time because there is a lot here already and there is not much to report on the cases yet.--Carrie
